AUTHOR INDEX

Benjamin, A. Cornelius, 13
Bergmann, Gustav, 163
Bigelow, Julian, 18
Boodin, John Elof, 1, 213
Burrow, Trigant, 271
Burtt, E. A., 57
Carmichael, Peter A., 90
Gauss, Charles E., 95
Gentry, George, 81
Hawkins, David, 255
Ichheiser, Gustav, 204
Johnson, A. H., 47
Jones, Philip Chapin, 34
Kaplan, Abraham, 230
Krikorian, Y. H., 184
Lee, Harold N., 67
Lepley, Ray, 124
Lillie, Ralph S., 262
Miller, Cecil H., 75
Miller, David L., 40, 145
Mueller, Gustav E., 149
Nabours, Robert K., 191
Rosenblueth, Arturo, 18
Schrickel, H. G., 208
Seifriz, William, 25
Smart, Harold R., 167
Smith, Mapheus, 250
Wiener, Norbert, 18
Winthrop, Henry, 131
Witzemann, Edgar J., 176
Wolff, Kurt H., 104

SUBJECT INDEX

Analysis and wholism, 213
Attributes, cosmic, 1
Becoming, on being and, 149
Behavior, the neurodynamics of, 271
Behavior, purpose and teleology, 18
Being and becoming, on, 149
Biological causation, the role of catalysis in, 176
Biotypology, the theoretical basis of, 131
Cassirer versus Russell, 167
Catalysis in biological causation, the role of, 176
Content analysis and the theory of signs, 230
Cosmic attributes, 1
Decisions in science, basic, 145
Discussion, 140
Elimination in scientific study, the method of, 250
Empiricism, the essential problem of, 13
Epistemic probability, existential and, 255
ESP, the masquerade of, 191
Existential and epistemic probability, 255
Fact and value, the identity of, 124
Facts, why psychologists tend to overlook certain "obvious," 204
G. H. Mead's conception of "Present," 40
Idealism, physics and, 34
Identity, notes on, 163
Imagination and indeterminism, creative, 25
Implication, the interpretation of, 95
Indeterminism, creative imagination and, 25
Knowledge, scientific method and, 67
Knowledge, the sociology of, 104
Life, mechanism and purpose, 184
Mechanism and purpose, life, 184
Metaphysics in Sir Isaac Newton, Method and, 57
Method of elimination in scientific study, the, 250
Method and knowledge, scientific, 67
Method and metaphysics in Sir Isaac Newton, 57
Mind—a study in perspective, 75
Neurodynamics of behavior, the, 271
Newton, Method and Metaphysics in Sir Isaac, 57
Null class, animadversion on the, 90
Organisms, the psychic factor in living, 262
Physics and idealism, 34
"Present", G. H. Mead's conception of, 40
Psychic factor in living organisms, the, 262
Psychologists tend to overlook certain "obvious" facts, why, 204
Purpose, life, mechanism and, 184
Purpose and teleology, behavior, 18
Russell, Cassirer versus, 167
Science and social philosophy, philosophy of, 208
Sensum theory, the logic of the, 81
Signs, content analysis and the theory of, 230
Social philosophy, philosophy of science and, 208
Teleology, behavior, purpose and, 18
Value, the identity of fact and, 124
Whitehead's philosophy, the intelligibility of, 47
Wholism, analysis and, 213
